

Carbide Gauge Blocks 710 Series

Features

Standard: DIN 861

- Made from solid carbide with high precision
- Service life is up to 6 times that of steel
- Excellent wringability due to micro polished surfaces
- Every gauge block has its own serial number
- Available in 3 grades
 - Grade 0 for calibration
 - Grade 1 for inspection
 - Grade 2 for workshop
- All sets have MOORE & WRIGHT certificate
- All sets can be issued with UKAS certificate at extra cost

CARBIDE GAUGE BLOCKS

Code No	Grade	No. blocks	Nominal size	Quantity	Step (mm)
MW710-01	0	103	1.005	1	-
